

JK Lakshmi Cement gets Productivity Excellence Award for 3rd year in a row

Jaipur, Jan 13, 2011- JK Lakshmi Cement was today awarded the prestigious “Productivity Excellence Award” by Rajasthan State Productivity Council at Jaipur. This is the third time in a row that the company has received the award. The award was presented in recognition of the unique productivity measures achieved by the company.

Shri Rajendraji Pareek, Minister of Industry, Govt. of Rajasthan presented the award to Shri Ganpat Singh, Chief Executive (Works) along with senior officials of JK Lakshmi Cement.

This criterion to judge the productivity excellence included parameters such as leadership quotient, quality, human resource management, processes & efficiencies, impact on environment and social contribution.

Recently JK Lakshmi has put up various innovative environment friendly projects such as:

Waste Heat Recovery 12 MW Power Plant.
This will lead to less release of 55000 metric tonnes of CO₂ per year

Installation of flyash drying system

Installation of biomass handling system i.e.
replacement of fossil fuel by biomass.

Speaking on the occasion, Sh Ganpat Singh said, "Presentation of this award will further encourage us to ensure that we optimize our productivity and play a leadership role in this area."
